SUMMARY

Final-year Computer Science & Engineering student with strong interest in Full-Stack Software Quality Assurance. Skilled in manual testing, test case creation, functional verification, automation testing, and documenting issues in software systems. Familiar with Agile methodology, SDLC, bug tracking, API testing, and SQL for data validation. Eager to contribute to high-quality software development projects.

SKILLS

- Manual Testing & Test Case Design
- Regression & Smoke Testing
- Bug Tracking & Reporting (JIRA)
- API Testing (Postman, REST API)
- SQL for Data Validation
- Agile/Scrum & SDLC/STLC knowledge
- Basic Automation Concepts (Selenium)
- Programming & Scripting: Python, HTML, CSS

ACADEMIC PROJECTS

Warehouse Management System (WMS) – Backend for inventory & order management (PHP + MySQL)

- Performed manual and automated testing for inventory and order modules.
- Verified data flow and identified potential functional issues.

Tour Craft – Travel website for exploring Bangladesh

- Tested booking and transport modules to ensure correct workflow.
- Validated user input and database entries for accuracy.

Speed Trap Sensor – ESP32 embedded project

- Tested vehicle speed detection and alert notifications.
- Verified real-time system data accuracy and logged findings.

Portfolio Website – Showcasing personal projects

- Tested navigation, responsiveness, and form submission functionality.

Easy Move – Online transportation service

- Conducted functional testing for ride booking, tracking, and management modules.
- Verified backend database operations for correct data storage.

Smart Traffic Management System – IoT-based traffic control

- Performed functional testing on traffic monitoring and control modules.
- Validated data capture and reporting mechanisms.

EDUCATION (Feb 2021 – Present)

BSc in Computer Science & Engineering – United International University (UIU)

Relevant Courses : Software Testing And Quality Assurance,Software Engineering, Project Management

TOOLS / ADDITIONAL INFORMATION

- QA Tools: JIRA, Postman,REST API
- Database: SQL
- Office: MS Word, MS Excel, MS PowerPoint
- Version Control: Git
- Strong analytical and problem-solving skills
- Effective communication and teamwork

LANGUAGES: English (Intermediate), Bengali (Native)
